

Tau Grants FY21 – Capacity Building

Our mission: *We, Allegany Franciscan Ministries and Trinity Health, serve together in the spirit of the Gospel as a compassionate and transforming healing presence within our communities.*

Allegany Franciscan Ministries is a nonprofit Catholic organization, guided by this mission and rooted in the tradition and vision of the Franciscan Sisters of Allegany.

Allegany Franciscan Ministries' FY21 Tau Grants will support capacity-building efforts for organizations or programs that are aligned with our mission and addresses at least one of the social determinants of health. Requests up to \$10,000 will be considered.

Social determinants of health are social, economic, and physical conditions that influence a person's overall health status, such as availability of safe housing, access to healthy food, quality of education and job training, transportation options, and access to health care. Addressing social determinants of health is important for reducing longstanding disparities in health and health care and achieving equitable health outcomes for marginalized groups. Health inequities often stem from structural racism or the historical disenfranchisement and discrimination of particular marginalized groups, including racial and ethnic minorities, low-income populations, and members of the LGBTQ community. These groups have historically been withheld from obtaining resources that are needed to be healthy, and are disproportionately exposed to a combination of health risks.

Allegany Franciscan Ministries' framework for understanding the social determinants of health includes five general categories: **education, economic stability, social & community context, health & health care, and neighborhood & built environment**. For more information about the social determinants of health, visit the Allegany Franciscan Ministries Resource Page or follow these links [APHA](#), [CHA SDOH](#) and [Healthy 2020 SDOH](#).

Allegany Franciscan Ministries offers Tau Grants for smaller nonprofits with organizational or program needs that are limited in scope. Tau Grants are intended to support organizations or services that assist persons who are marginalized, economically poor, or have limited access to healthcare and health information.

For the purposes of this Tau Grant application process, capacity building is defined as intentional, mission-driven efforts aimed at strengthening the operations, management, programs and governance of nonprofits to improve their performance and impact. **Priority will be given to organizations or programs with a need for Technology Equipment, and Diversity, Equity and Inclusion Training and Community Organizing**. Successful applications **could** focus on (but are not limited to):

- **Technology Equipment and/or Software Subscription**
- Strategic Planning/Fundraising Strategy/Fund Development Strategy
- Board Development/Staff Development
- **Diversity, Equity, and Inclusion Training/Social Justice Training**
- Website Redesign/Marketing and Communications
- **Community Organizing**

Eligibility
